EDUCATION EXPERIENCE

Aalto University, ***Finland*** ***Sep. 2021 – Dec. 2023***

- Master in Architecture, Landscape Architecture and Interior Architecture, with Architecture as the major
- Master thesis: *City Observer: Urban Narrative Trajectory* (Supervisor: Prof. Antti Ahlava)
  - Focus on sustainable, human-centric urban development and narrative architecture methodology
- Core Courses: *Wood Architecture, Design studio & Advanced building Design Studio, Urban Narratives*

ETH Zürich, ***Switzerland*** ***Jul. 2022 – Mar. 2023***

- Exchange: Architecture, D-ARCH (Erasmus)
- Erasmus Scholarship, ETH incentive-based scholarship
- Core Courses: *Architecture of Territory, History and Theory in Architecture, Architectural Design*

The University of Hongkong, ***Hong Kong SAR*** ***Jun. 2018 – Aug. 2021***

- Bachelor of Global creative industry (mobility program)

Nanjing Tech University, ***China*** ***Sep. 2016 – Jun. 2021***

- Bachelor of Architecture (GPA: **3.7/4.0)**
- Thesis: *Design of a Sustainable Large-Span Timber Automotive Culture Exhibition Center*
  - Focus on integrating large-span timber structures into a terraced mountain site to create a flowing, nature-harmonized automotive culture and exhibition center.
- Core Courses: *Urban Design, Computer Aided Design, Architectural Programming*

SKILLS

- **Technical/Research Tools**: LCA (advanced), Python (basic), AI-driven design (Midjourney, Stable Diffusion, TripoSR).
- **Digital Construction/BIM**: Rhino, Grasshopper, Revit, ArchiCAD, Unity.GIS， Blender, CloudCompare, Autodesk ReCap
- **Visualization**: Cinema4D, Photoshop, Illustrator, InDesign, V-Ray, Twinmotion.
- **Languages**: Chinese (native), English (fluent), German (basic).

HONOR AND AWARDS

- Stuttgart opera house lAA Honor mentioned ***2023***
- Architect Annikki Paasikivi scholarship ***2023***
- Erasmus internship program scholarship ***2023***
- ETH Zürich incentive-based scholarship ***2022***
- Erasmus exchange program scholarship ***2022***
- Aalto University incentive-based scholarship ***2022***
- "Zhonglian Cup" International University Student Architectural Design Competition ***2019***
  - Excellence Award, *The time and space of place and the evolution of architecture*
- "Zhuhai Township Cup" National University Village Housing Architectural Design Competition ***2019***
  - Excellence Award, *Country Residence Architectural Design*

PUBLICATIONS

- Children's Era (Peer-Reviewed Journal in Chinese), supervised by China Welfare Association
  - *"Exploring Child-Friendly Spaces - Adventures in the Children's Book Forest: Tadao Ando's Magical Library"* ***Sep. 2024***
  - *"Exploring Child-Friendly Spaces - Healthy Exploration in Play: KO Kindergarten's Innovative Design Ideas"* ***Aug. 2024***
  - *"Exploring Child-Friendly Spaces - Adventure World: The Miracle House of Therapy Adventures"* ***Mar. 2024***

RESEARCH EXPERIENCE

Voluptas Project – ETH Zurich & ZHDK Collaboration ***Sep. 2022 – Dec. 2022***

- Collaborated with the Game Design Department to explore the integration of immersive game design narratives with architectural space.
- Merged virtual space design with architectural narratives, utilizing immersive media techniques and montage to enhance spatial perception and user engagement.
- Applied montage as a creative tool for layering spatial elements, contributing to cutting-edge research in immersive spatial perception through interdisciplinary collaboration.

Meta Design Strategy – Shibaura University of Technology (SIT) ***Jan. 2022 – May. 2022***

- Did descriptive investigation of the relationship between anthropological ontology and proto-ontology.
- Combined theories and practical applications to explore the many ways in which plurality (meta-universe) might be realized in architecture and interaction.

Urban Container Project – Aalto University Woodstudio ***Sep. 2021 – Dec. 2021***

- Sustainable Timber Solutions: Focused on researching the lifecycle of sustainable timber structures and their potential for adaptive reuse over the next 50 years, with a specific emphasis on urban housing.
- Innovative Timber Node Design: Explored innovative, adaptable timber node systems, including modular plug-in bearing systems and adjustable window shading solutions, to enhance the flexibility and longevity of timber structures in urban environments.
- Adaptive Urban Spaces: Investigated six basic spatial prototypes for urban living, using container architecture as a foundation to explore adaptable & scalable solutions for future urban housing.
- Future-Ready Urbanism: Developed solutions for timber-based, interchangeable urban housing units, aiming to create a sustainable and resilient urban fabric through adaptive architectural elements.

WORKING EXPERIENCE

NL Architects, Amsterdam — Junior Architect Intern ***Jan. 2023 – Jul. 2023***

- Participated in designing the community centre for Pijnacker.
- Led AI-assisted design testing of Amsterdam Swimming Pool.
- Won 1st Prize in International Invited Competition for Staatstheater Stuttgart Opera house Competition.
- Won 3rd Prize in International Invited Competition for Chonbang & Ilshin textile Industrial site Masterplan Competition.

Shanghai Letalwork Cultural Development Co. ***Jul. 2016 – Present***

- Did VR immersive spatial design for “Le Corbusier China Pavilion” international exhibition.
- Did AI spatial design and computational method design for “Biennale China Pavilion” PSA exhibitions.
- Contributed to the design and curation of the “15-minute Community Living Circle” art exhibition of SUSAS (Shanghai Urban Space Art Season).
- Completed social media official account articles with several Chinese national academics for the Urban Design in China Forum (Sustainable Open Streets in China).
- Assisted in interviewing and completing academic articles for the architectural firm SPARK.

Suzhou Qidi Architectural Design & Research Institute ***Jun. 2021 – Aug. 2021***

- Participated in the design of Suzhou Cultural Center and Rudong Classical Culture Park.
